

PRESS RELEASE

For Immediate Release

## **Hometown Driver, Dane Moxlow, Kicks Off Detroit Grand Prix Festivities**

**Detroit, Michigan (23 May 2013)**— Dane Moxlow, pilot of the #7 Trenton Forging/Eaton Steel/Cardinal Energy Group/Huntington Bank Ford Mustang Boss 302s, is busy preparing for the Detroit Belle Isle Grand Prix which takes place June 1<sup>st</sup> and 2<sup>nd</sup> on the beautiful island of Belle Isle, Michigan, just twenty-five minutes north of Moxlow's hometown of Grosse Ile.

When asked how he felt about the track Moxlow said, "I'm relieved that the track has been repaved since last year's race because of our ABS issues. The layout has been revamped to promote passing and higher speeds so the racing should be better for both the drivers and the fans. I loved the track before and I am positive it will be even better this year. It is a very unique feeling to drive this track knowing what the island of Belle Isle looks like when it isn't transformed into a full-fledged racetrack, complete with paddock space and a midway."

Moxlow will be kicking off the week's events by driving the IndyCar two-seater to start the Grand Prix Shakedown Fun Run on Belle Isle Tuesday, May 28<sup>th</sup>, and he'll be participating in the Grand Prix Street Fest on Wednesday, May 29<sup>th</sup> at Campus Martius Park where he'll be answering questions from fans and signing autographs. Come out and join the fun! Also keep an eye out for Dane's interviews and participation in the Grand Prix Tweet-Ups throughout the week (follow him @DMoxlow for real-time updates).

When asked about his goals for the weekend Moxlow said, "The car is headed in the right direction. We struggled with the high-speed sweeping stuff at COTA but Detroit really has nothing like that so we are hoping our advantages will outshine our pitfalls this race. I would personally like to better our 7th place finish from last year. I'm looking forward to sleeping in my own bed and driving in front of hoards of friends, family, and colleagues. The race is great for the city of Detroit and being part of it is truly an honor."

This weekend is also special for the Dane Moxlow Racing (DMR) team because one of his sponsors, Trenton Forging Company, is partnering with DMR to host and entertain United States military members and their families on Saturday with the help of the Wish for Our Heroes organization. "It is the least we can do for Soldiers and their families who have put their lives on the line for our safety," says Moxlow. Visit [www.wish4ourheroes.org](http://www.wish4ourheroes.org) or utilize the Text to Donate option: text 'America' to 20222 to donate \$10 to W40H.

Watch the races on [www.world-challenge.com](http://www.world-challenge.com) at 10:15 a.m. on Saturday, June 1<sup>st</sup>, and 12 p.m. on Sunday, June 2<sup>nd</sup>.

CP-Carrillo was founded with the mission of servicing the needs of enthusiasts and racers who desire to build the highest quality engines. CP-Carrillo ensures the highest quality by using the latest technology to manufacture its products, including state-of-the-art equipment, proprietary tooling and dedicated cutters. Along with unique fixturing, computer modeling and five-axis machining, CP-Carrillo employs a multi-level inspection process that includes an advanced climate-controlled inspection department to guarantee that each piston and rod is second to none. If you are in the market for a rotating assembly no need to look further— pistons, rods, wrist pins, rings, except the crank. By purchasing all of these components together CP-Carrillo coordinates designs and specifications to allow these parts to integrate precisely and perform optimally- an advantage no other piston and conrod manufacturer can claim. CP-Carrillo is a member of PANKL Racing Systems.
